HISTORICAL HORSE RACING (HHR)

COMPETITION
UNCERTAINTY
STRATEGY • EXCITEMENT • REAL RESULTS

BRING THE EXCITEMENT OF HORSE RACING TO A MUCH BROADER AUDIENCE AND MAKE RACING WAGERING AVAILABLE AS AN EASY, CONTINUOUS FORM OF ENTERTAINMENT

NEW ENTERTAINMENT SEGMENT

THE OPPORTUNITY

WHAT IS HISTORICAL HORSE RACING?

HHR uses the results of real horse races that have already taken place as the underlying event.

The race is not simulated. The outcome is not generated by a random number generator.

REAL RACES

Official historical results

CONTINUOUS

Available immediately

SIMPLE UI

Familiar interaction

REAL MATH

Racing mathematics remains

REAL RACING + CONTINUOUS AVAILABILITY + SIMPLE INTERFACE

A new way to experience racing

CUSTOMER EXPERIENCE

TWO BARRIERS. TWO REMEDIES.

BARRIER #1 **Racing is infrequent and slow**

BARRIER #2 **Race wagering is complex**

REMEDY: HISTORICAL RACES

- ✓ No waiting for the next live race
- ✓ Experience a race at any time
- ✓ Immediate and repeatable entertainment

REMEDY: FAMILIAR GAMING INTERFACE

- ✓ Available wager and potential outcome
- ✓ Race, result and payout presented clearly
- ✓ Complex mathematics stays underneath

THE BASIC CONCEPT

HOW DOES HHR WORK?

1

DATABASE

Historical race data

2

SELECT

Random race selection

3

WAGER

Player places wager

4

RESULT

Official result read

5

PAYOUT

Pari-mutuel settlement

THE RACES ARE HISTORICAL

BUT

THE ENTERTAINMENT IS HAPPENING NOW

THE PRINCIPLE

WIN • PLACE • SHOW • EXACTA • TRIFECTA • SUPERFECTA

UNDERLYING RACING

- Σ Combinations & probabilities
- Σ Betting pools
- Σ Pari-mutuel calculations
- Σ Payouts

CUSTOMER EXPERIENCE

- › BET → PLAY → RESULT → WIN
- › Immediate availability
- › Fast game cycles
- › Clear visual feedback
- › Easy-to-understand wager & payout

DON'T SIMPLIFY THE MATHEMATICS. SIMPLIFY THE CUSTOMER INTERACTION.

WHAT MAKES HHR DISTINCT

DIFFERENT FOUNDATION

TRADITIONAL SLOT

BET → PLAY → RNG / GAME LOGIC → SYMBOLS → PAYOUT

HISTORICAL RACING

BET → PLAY → HISTORICAL RACE → WAGER → RACING OUTCOME → SETTLEMENT

CERTIFIED DETERMINISTIC MAPPING

RACE RESULT

4 - 7 - 2 - 9 - 1

→

WAGER OUTCOME

Official result

→

REEL-STOP VECTOR

Certified mapping

→

TERMINAL

Visual display

The mapping is part of the certified game mathematics - not a second RNG.

COMPLIANCE & BUSINESS

REGULATED WAGERING MODEL

REGULATORY FRAMEWORK

- ✓ ARCI Model Rules address HHR
- ✓ Dedicated HHR technical standards
- ✓ Independent laboratory testing
- ✓ Critical software / memory controls
- ✓ Auditability and wager recall
- ✓ Pari-mutuel pool requirements
- ✓ GLI standards for terminals

BUSINESS PROPOSITION

RACE DATA +
PARI-MUTUEL WAGERING +
GAME PRESENTATION

- **AUTHENTIC - historical races & official results**
- **SCALABLE - expanding historical database**
- **ENTERTAINING - modern intuitive interface**
- **REGULATED - recognized pari-mutuel framework**

Legal status, licensing and technical requirements remain jurisdiction-specific.

THE STRATEGIC OPPORTUNITY

Make the player experience simple without making the underlying wagering model simple.
